

Maruti Precision
INDUSTRIES
World Class Metal Solutions

*Leading
Manufacturer of
Metal Turned
Components..!*

About Us

Established in 1989 as Leading Manufacturer of Metal Components, Maruti Precision Industries is manufacturer of Brass, Aluminium & SS Components in India. By the years of experience and broad vision towards the total Quality in every aspect, company has earned its own name in the Brass Industries, worldwide. We give our customers excellent technical support through out the manufacturing process to ensure very best possible products.

- 32+ Years Of Experience**
- Competitive & Fair Pricing**
- Zero Defect Products**
- On Time Delivery**

Dedicated Team

We are a team of highly skilled and experienced professionals who endeavor their best to achieve the goals of our company successfully. Our each and every professional is well trained.

Improving Continuously

It means always analyzing the way work is being performed to determine if more effective or efficient ways are possible. Making improvements and striving for excellence all the time.

Our Mission

At Maruti Precision Industries, our mission is to find the best expert solution for the customer's particular requirement, which results into the creation of long standing commercial relationships.

Our Vision

Our vision has always been to excel in our performance and achieve perfection in what we are doing. Timely delivery and competitive pricing are the characteristics of our organization.

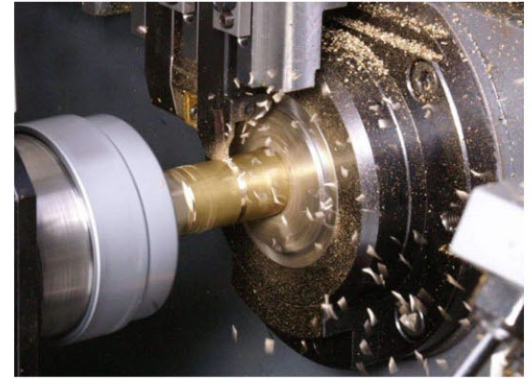

Our Commitment

Our commitment is to understand and exceed the expectations of our valued customers, while delivering high quality products, services, and solutions to their most demanding requirements.

Capabilities

We are a vision driven organization, and the key to fulfilling our vision is to add significant value to the customer. To meet this ambitious vision, we've invested first in our team, assembling an impressive array of experienced talent and provided them with state of the art technologies and equipments.

Processing Material	:	Brass & Special Copper Alloy Such as BS 2874 CZ 121, UNS 36000, BS 249, etc
Machining Facility	:	Brass Bar Turning & Machining on Automatic Lathe
	:	Brass Bar CNC Machining and Turning
	:	Brass Forging plus CNC Machining
	:	Brass Casting + CNC Machining
Processing Expertise in	:	Brass Screw Machining & Turned Engineering Component
	:	Specialized Turned Fasteners
	:	Brass Threaded & Knurled Inserts
	:	Brass Wire Terminals & Connectors
	:	Lighting & Earthling Protection Parts, Cable Gland Systems Custom Brass Precision Components
Additional Scope of Work	:	Complete Assemblies with Plastics and Rubber Parts
Processing Range	:	2 mm to 300 mm Diameter
Design Aid Software	:	AutoCAD 3D, 3D Max Studio
Certification	:	ISO 9001:2015

Material We Use

BRASS

ALUMINIUM

STAINLESS STEEL

Quality

Our quality assurance team is trained and well experienced. We have lab area with modern equipments. We have established separate department for final inspection. We assure that all parts supplied by us are compatible and interchangeable with the corresponding original part and all critical dimensions and tolerances are in accordance.

We are dedicated to supply only best quality industrial products which are designed to work with the most rigorous applications. Our products and raw materials are certified by authorize laboratories after rigorous testing requirements which are conducted under the expert professionals of certified bodies. We have adopted quality assurance program to meet ISO standards. All products made by MARUTI PRECISION INDUSTRIES are tested and inspected by certified professionals.

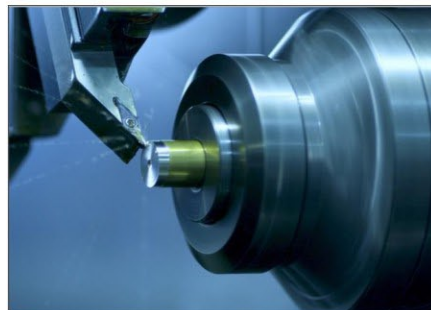

Our Infrastructure

We at Maruti Precision Industries have In-House Manufacturing Facility with innovative machineries & operations with new technology. The industry is installed with latest and ultra modern automatic equipments which are run and maintained by well experienced staff who produces Controlled Quality Material.

Brass Inserts

The wide range of Molding Inserts include threaded molding inserts, ultrasonic molding inserts, knurled molding inserts, molding inserts for plastic, wood molding inserts and more. The range of standard and high quality molding inserts designed to molded into the plastic, wood or any molded components. As compared to installing inserts into a plastic part in a post molding process, the use of molding inserts eliminates the need of further installation and reduce costs. Molding Inserts are available with high strength threads. They are widely used in thermoset plastics, molding inserts are designed to place into the mold cavity prior to plastic injection.

Brass Auto Parts

We are committed to manufacturing optimum quality and a wide range of Brass Auto Parts as per custom specifications. Our brass auto parts are commonly used for different automobile and automotive applications. The range of Brass Auto Parts can also be used freely for different industrial application from automobiles to construction industries. Our experts make sure that our products suit perfectly to your complex project requirements. The Auto Parts are made of superior grade brass and other raw material in different sizes and range to meet the exact demand of our customers.

Brass Fasteners

We provide Standard and High-Quality Brass and MS (Mild Steel) Fastener with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Brass and MS Fasteners are easily removable without any damages the joining components. They are made from brass, mild steel and other material composition. Brass and MS Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more. Brass and MS fasteners are widely used in various industrial sectors including Electrical, Mechanical, Construction, Automotive, Automobile, Oil and Gas, Petrochemical and more. Brass and MS Fasteners are widely available in different size, shapes, grades, configuration and specification. We provide Fasteners as per DIN, ANSI, JIS, GB, GOST and other international standards.

Brass Turned Parts

We are highly reputed manufacturers and suppliers of Brass Turned Components. Our products have attractive features like optimum quality, durability, effective usage and performance with friendly prices. These products are developed from effective raw materials and state of the art technology.

Brass CNC / VMC Components

Maruti Precision Industries are involved in offering superior quality of CNC Turned & VMC Machined machine parts. We manufacture these parts using high grade raw materials like Mild Steel, Stainless Steel, EN Series, brass, copper, aluminum and many more as per the industrial standards and customer specifications. Our range of includes various parts for automobile, hydraulics, pneumatics, etc. We manufacture and supply these parts in different specifications, sizes and grades as per the requirements of our clients. Customers can avail these parts from us in cost effective prices.

Brass Forged Components

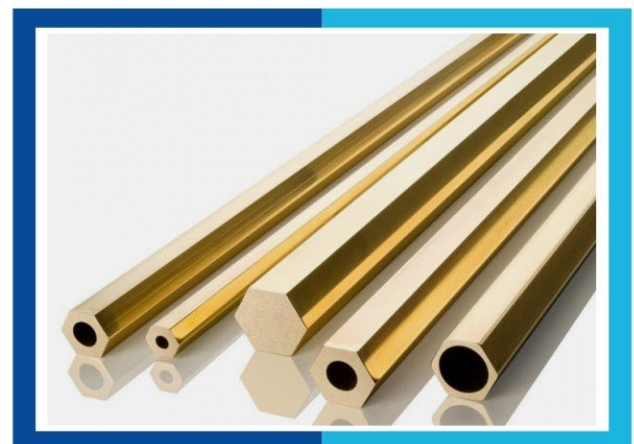

We are specialized in Manufacturing of Brass Forging Components and Brass Casting Parts. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components and Brass Forging Parts for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility for Brass Forging Parts as per Customer's Designs and Requirements. We offer the Brass Forged Parts and Casting Parts with Sand-Blasting and Debarring Facilities for Surface Finish, Which give more effectiveness on the finishing on the Brass Forging and Casting Components.

Brass Sheet Cutting Parts

Sheet Cutting Parts / Stamping Parts are used in varieties of applications like Riveting, Fitting, Supports, Locking, Fastening & for various uses in Electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Sheet Cutting Parts generally made from Brass, Copper & Steel which are the universally used in most of the applications. Other Metals such as Phosphorus Bronze & SS can be made available as per customer request. Material grade followed for Brass Metals is IS 410: 63-37 Half Hard: CuZn37. Any High Grade material can be followed for any metals as per custom specification. Any Stamped/Pressed Part can be produced from 0.50mm Thickness to 5.00mm Thickness.

Brass Extrusion Rods

With a thorough knowledge of various aspects, we are prominently furnishing a quality range of Brass Extrusion Rods. We mainly manufacture copper and copper-based alloys brass extrusion which is drawn in different shapes like – round, hex, square, rectangular and flat. These round bars find their application in varied industries as these are developed using quality-tested raw material that is sourced from genuine and reliable vendors of the market. Besides, the brass extrusion rod is rigorously tested on various parameters before delivering it to the customers.

Brass Sanitary Fittings

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Jointer.

Brass Electrical Components

We are manufacturing all kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

Brass Cable Gland & Accessories

We manufacture and export a comprehensive range of Industrial Cable Glands, Cable Fittings and Cable Gland Accessories for the smooth interconnection of cables and equipment. The range of Cable Glands include safety, deluge, flameproof and explosion proof Cable Glands cover the full spectrum of cable from general to industrial types. The manufactured range of standard and high-quality Cable Glands are designed to provide optimal systems integrity when used alongside cables and form an integral part of cable solutions.

Brass Spindle

We manufacture Brass Spindle of Brass parts & export & sale in domestic market. Produced using the good quality of brass raw material for durable nature. These filters are very helpful and work very smoothly. Entire range of these products is made from top quality components and using advance technologies. These are manufactured using high grade raw material and latest technology in compliance with set industry norms. Efficacious performance and durability are the chief attributes of brass auto parts available with us. We provide availability. These are available in many dimensions like sizes and shapes and are available in full customization. We offer these at market leading prices. There are many products in Disc fittings.

Aluminium Parts

Aluminium Parts are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Before the last dispatch, a pool of quality machineries strictly inspects these products against diverse parameters of quality. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market. As all our products are developed using technologies best suited to latest industrial application and consumer demands, they are known for exhibiting rich attributes. Aluminium Turned Components are known for Rugged construction, Assuring proper fitting, Durability, Outstanding performance and Low maintenance. These Aluminium Parts are available in different size and configuration in the market as per customer requirements and specification.

Stainless Steel Parts

We Manufactures of Stainless Steel Parts, Stainless Steel Machine Components Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability and precised designs. We ensure the most reliable products which is available in best specification at the most profitable price range. Our products use in many industry like Automotive, Material handling, Textile industry

PRODUCT RANGE

- ▶ Brass Inserts
- ▶ Brass Auto Parts
- ▶ Brass Fasteners
- ▶ Brass Turned Parts
- ▶ Brass CNC / VMC Components
- ▶ Brass Forged Components
- ▶ Brass Electrical Parts
- ▶ Brass Precision Components
- ▶ Brass Sheet Cutting Parts
- ▶ Brass Extrusion Rods
- ▶ Brass Sanitary Fittings
- ▶ Brass Electrical Components
- ▶ Brass Cable Glands & Accessories
- ▶ Aluminium Parts
